DO

- Find a way to speak privately to the student, for instance after class when other students have left, or in your office.
- Tell them what you are observing that makes you concerned.
- Ask open-ended questions about how they are doing.
- Let them know you are here to listen and connect them to support if they need it.
- Share campus resources and ask if they need support or help in accessing them.
- Report any concern that a student is at immediate risk (see next page) to campus authorities (BIT or CARE teams, counseling center, or campus security).

DON'T

- Underestimate the student's struggles. It is far better to check in unnecessarily than to dismiss a potentially harmful situation.
- Promise confidentiality school guidelines might require you to report a student who is at immediate risk of harming themselves (see next page).
- Leave the student alone if you feel they are at immediate risk.
